 LinkedIn Profile

PROFESSIONAL SUMMARY

Computer Science Engineering student at Dr. A.P.J. Abdul Kalam Technical University with strong interests in **Artificial Intelligence**, **Backend Development**, and **Full-Stack Web Development**. Passionate about building practical AI-powered systems that solve real-world problems.

Experienced in developing **AI-integrated** applications, **REST APIs**, browser extensions, and developer tools. Skilled in **Python**, **JavaScript**, **FastAPI**, **Node.js**, and modern AI model integrations. Seeking internship opportunities to gain hands-on industry experience and contribute to impactful technology projects.

PROJECTS

CodeMentor AI

AI-Powered Code Review & Interview Preparation Platform

- ✓ Full-stack AI coding assistant platform
- ✓ Code analysis and explanation
- ✓ Bug detection and optimization suggestions
- ✓ AI-generated interview questions
- ✓ Backend APIs using Python and FastAPI
- ✓ Multi-model AI integration using OpenRouter, Groq, and Gemini APIs
- ✓ AI chatbot support
- ✓ Expandable UI workflows
- ✓ Developer productivity enhancement

```
1 async function processPayment(user, amount) {
2   if (amount <= 0) {
3     throw new Error("Invalid amount");
4   }
5   const userBalance = await getBalance(user.id);
6   if (userBalance < amount) {
7     throw new Error("Insufficient balance");
8   }
9   return await charge(user, amount);
10 }
```

AI Assistant

Here is the analysis of your code.

- Code looks good overall ✅
- Consider handling exceptions
- Add comments for better readability

Ask anything...

TrustLens Pro

AI Deepfake & Misinformation Detection Extension

- ✓ AI-powered Chrome Extension
- ✓ Detects misinformation and manipulated content
- ✓ LLM-based forensic analysis
- ✓ Browser extension architecture
- ✓ Backend API integration
- ✓ Digital trust enhancement system

Detection Results **High Risk**

Deepfake Probability **87%**

Analysis

- Facial inconsistencies detected
- Unnatural eye movement
- Lighting mismatch
- GAN artifacts present
